CertiFoam and LEED

- *DiversiFoam Products* utilizes LEED defined pre and post consumer recycle content in the production of *CertiFoam* XPS. Because of the uncertainty of supply and the onerous record keeping requirements, we do not make any specific claims as to the percentages or sources of this recycle material for a particular shipment or project.
- *DiversiFoam Products' CertiFoam* XPS manufacturing process recycles more than 98% of its own scrap to minimize waste.
- *CertiFoam* XPS is manufactured at *DiversiFoam Products'* production facility in Rockford, MN 55373.
- The raw materials used in the manufacturing of *CertiFoam* XPS are sourced from various locations, with the majority by weight within 500 miles of *DiversiFoam Products'* production facility in Rockford, MN.
